# Trakul Thai Products Co.,Ltd.

**T**rakul Thai Products Company Limited (Trakul Thai Products Co.,Ltd) was established in 1995. The company produces aluminum equipment of high quality to send to customers in both its home country, Thailand, and in other countries as well. Due to the trust placed in it by its customers, the company has evolved into one of the leading manufacturers in the country.

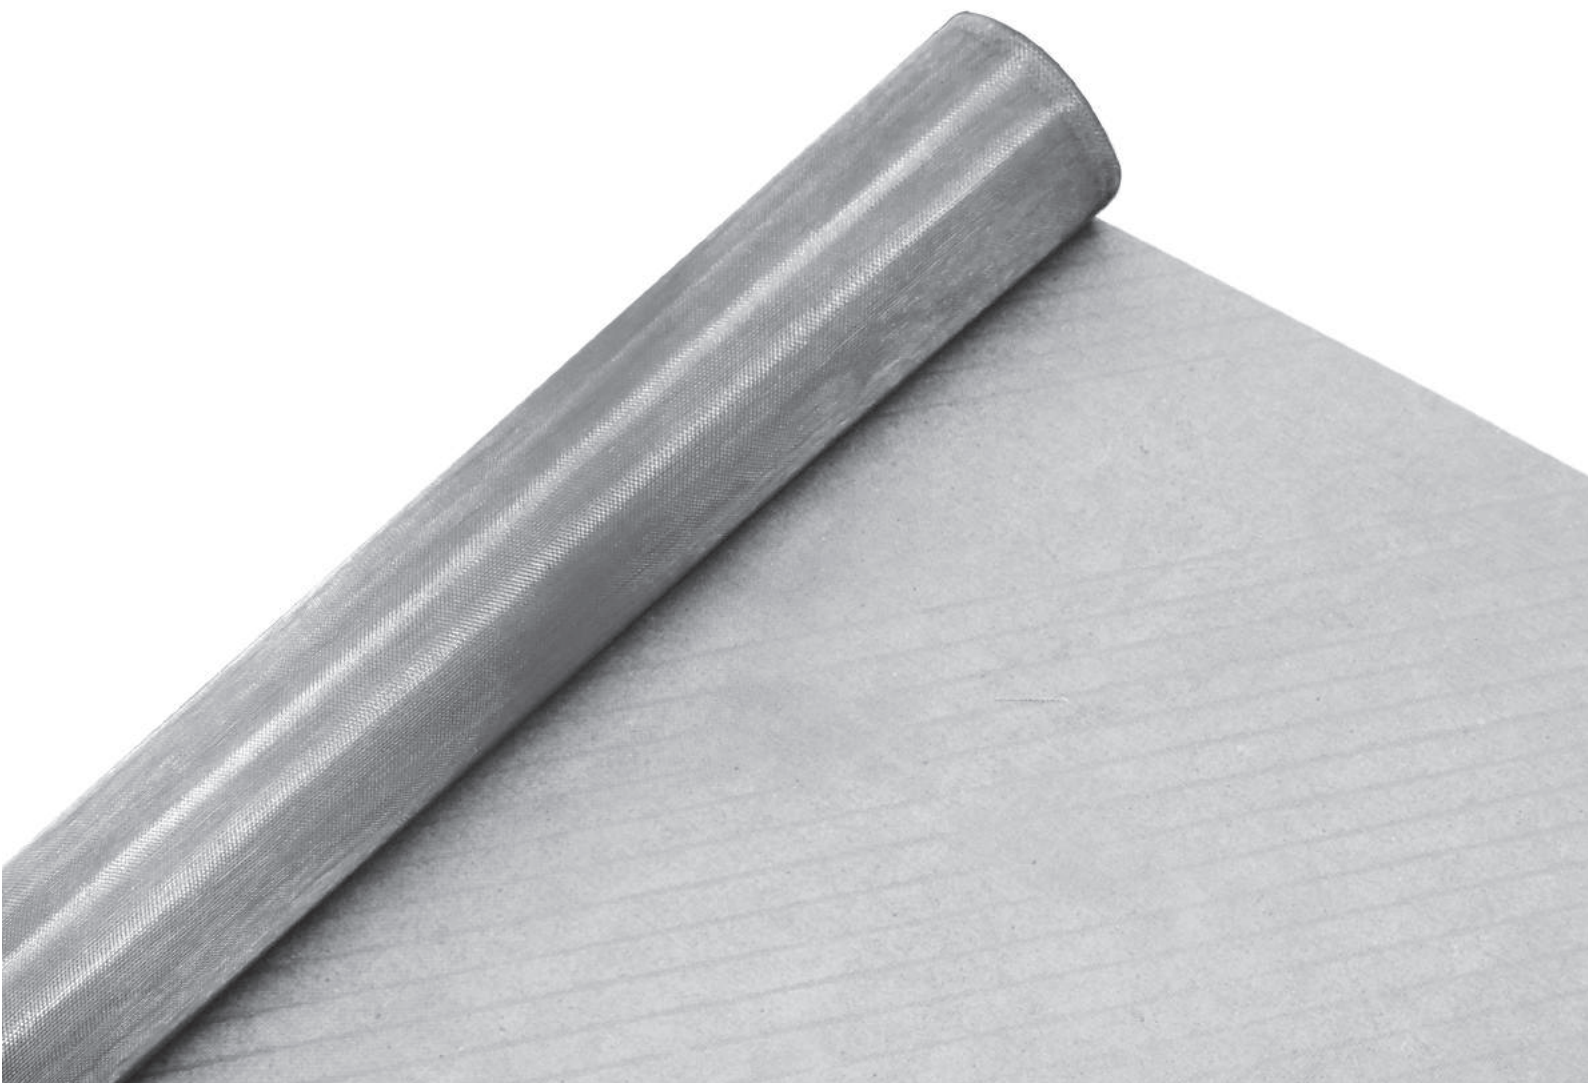

Trakul Thai Products Co.,Ltd., has also expanded its research and development to meet the needs of its customers and to ensure the products are of high quality and standards. Its product line includes items such as aluminium insect screening, nylon netting, rivets, pull handles (stainless), stainless tubes, and so forth.

**We** use imported raw materials of high quality and standards from Japan, Germany and the Middle East. The raw materials are processed, designed, and turned into products with advanced manufacturing technology. **The machinery used in production employs imported technology from countries such as Japan, Germany, and Italy to ensure high quality.**

**Our company** is sensitive to the needs of the environment. It is policy-driven and ready to lead in the renewable energy sector, including solar energy and solar cells. The unified systems for all its facilities include electricity and lighting, leading to the overall development of the country (Thailand) in many different ways. We are also equipped to test products and systems design, and to do consulting as well.

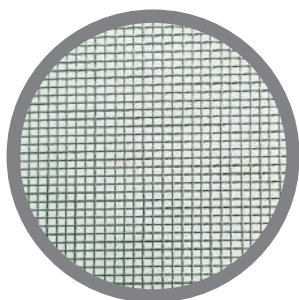

**In** addition to within Thailand, our company also exports products to various other countries, such as Australia, India, Bangladesh, Cambodia, Laos, Myanmar, Philippines, and so forth. Within approximately the past decade, we have grown 25% with a further commitment to do business outreach to steadily increase our growth.

**We** look forward to being listed on the Thai Stock Exchange, in order to create growth opportunities to expand the business, enhance the product line, and provide leadership. With more than 20 year of business experience, we are ready to support the growth of the company as well as product demand in the world market. We also have a plant that includes four branches to ensure our production increases adequately.

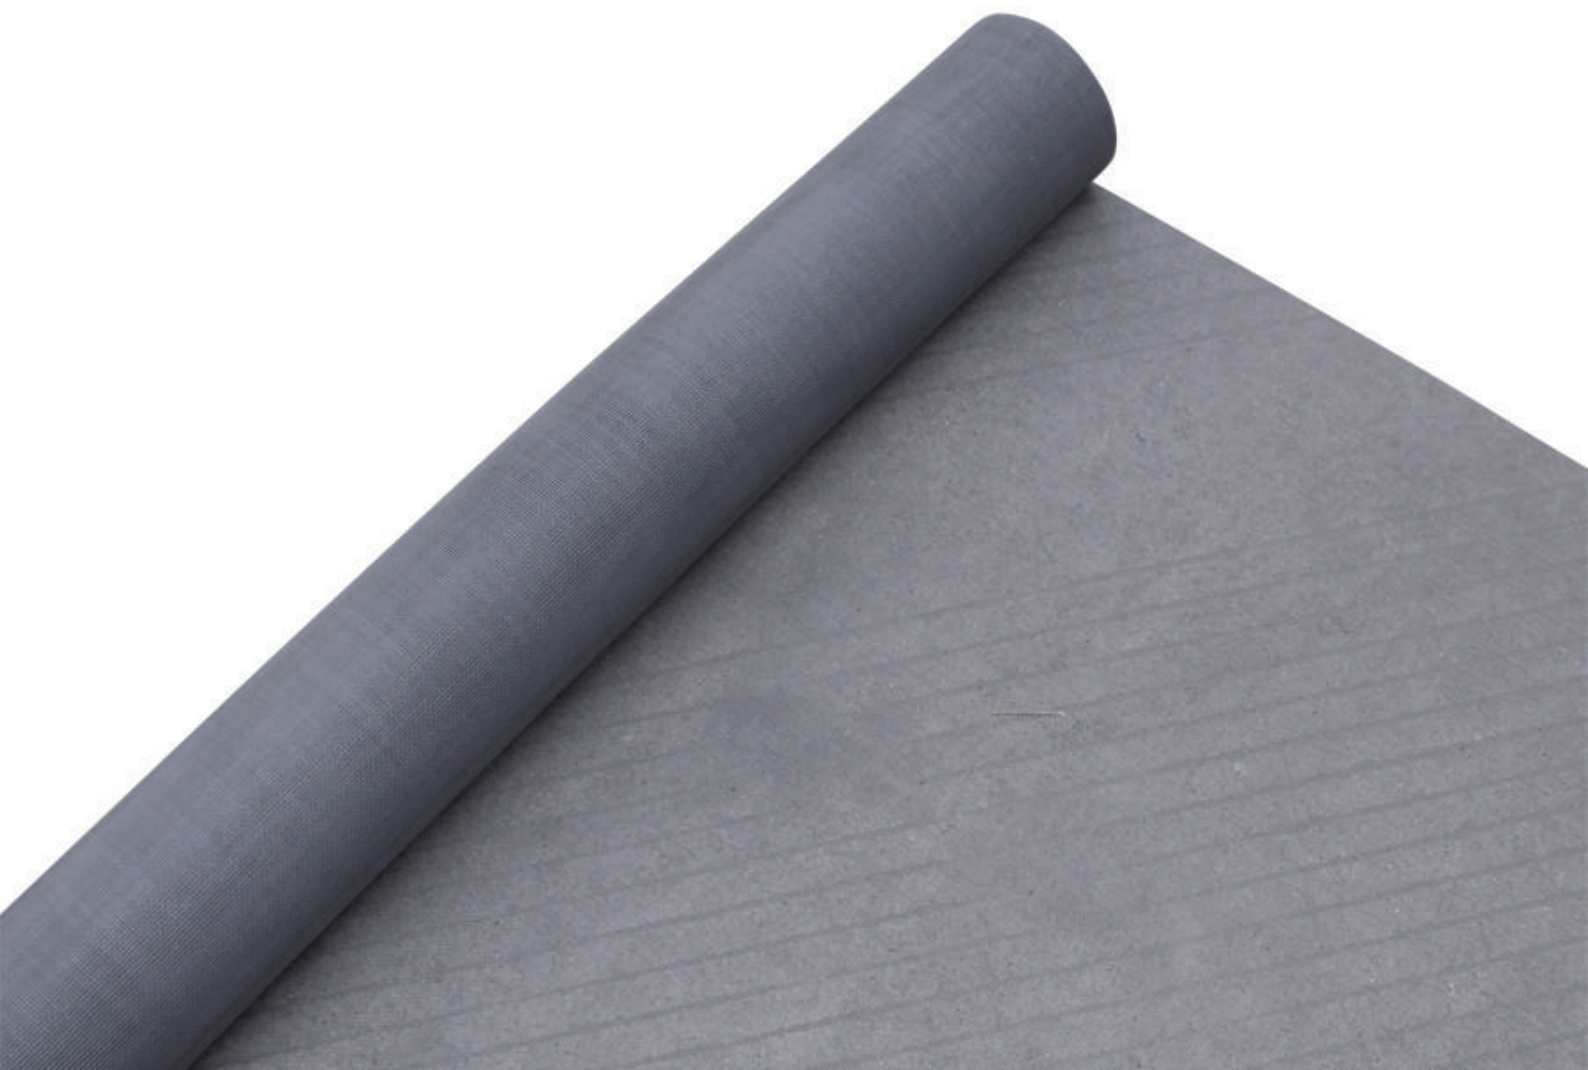

## ALUMINUM INSECT SCREEN BRAND PANDA

Aluminium insect screens are made of good quality and woven with modern machines. They are strong, and keep out insects and crawling beetles. They also filter out dust from the air
